🔗 juliancamits-tech

Summary

Senior Backend Engineer with over 8 years of experience designing and building scalable backends, primarily using .NET technologies. Specialist in financial systems, Azure-based cloud architectures, and modernizing legacy systems into optimized, high-availability microservices.

Experience

Remitee, Software Architect / Backend Developer

Buenos Aires, Argentina

- Led the standardization of development practices by creating NuGet packages with SourceGenerators and Analyzers, improving code consistency and reducing onboarding time.
- Designed and developed backend services for provider integrations and maintained RESTful APIs for external clients.
- Provided technical support for API integrations to external clients, ensuring best practices for optimal consumption.
- Participated in technical evaluations and the hiring process for new team members.

Mar 2023 – Apr 2026

3 years 2 months

Mercado Abierto Electrónico, Software Architect / Backend Developer

Buenos Aires, Argentina

- Designed and implemented the integration between Bloomberg systems and the Central Bank of Argentina (BCRA) using the FIX protocol.
- Defined the system architecture, ensuring scalability and low-latency communication.
- Developed and maintained APIs for financial data exchange and administrative operations.

Feb 2022 – Mar 2023

1 year 1 month

Contabilium, Backend Developer

Buenos Aires, Argentina

- Built the migration from a legacy MVC monolith to a modern API and microservices architecture.
- Maintained and improved the legacy system by solving critical fixes and adding new features.

Apr 2021 – Feb 2022

11 months

IT Desarrollo, Backend Developer

Buenos Aires, Argentina

- Developed and maintained the module for financial data processing systems (Credit Bureau).
- Built ETL processes to import financial data from banking clients.
- Implemented MSMQ for asynchronous message-based processing.

Nov 2016 – Apr 2021

4 years 6 months

Education

Bachelor's Degree Universidad de Palermo, Information Technology

2017 – 2019

Skills

Languages: C#, JavaScript, Python

Frameworks & Infrastructure: .NET 10, .NET Core, ASP.NET MVC, Entity Framework, Azure Service Bus, Kafka, Keycloak

Architecture & Patterns: Microservices, REST APIs, ETL, CQRS, Mediator, SourceGenerators, Analyzers

Databases: Microsoft SQL Server (MSSQL), Postgres, Mongo

Protocols & Tools: FIX, gRPC, MSMQ, Git, Swagger (OpenAPI), NuGet, JSON Schema

Certifications

- Google Workspace (2026)
- Google Cloud Engineering (2025)
- PMI Certificate & ERP Implementer Certification (2016)
- Microsoft Visual Studio Certification (2015)
- IBM DB2 Database Design & Android Developer (2015)
